A.I.D.E. — Android IDE on Android

Java+Android SDK/ C/C++ Android NDK

https://play.google.com/store/apps/details?id=com.aide.ui&hl=sk

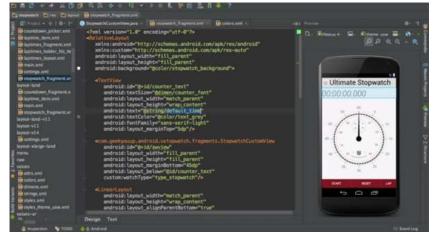

Android Studio (IntelliJ iDEA)
 http://developer.android.com/sdk/installing/studio.html
 http://developer.android.com/tools/studio/index.html

IntelliJ iDEA pluging for Android (Professional Android IDE)

http://www.jetbrains.com/idea/

ADT plugin pre Eclipse
 Android Development Tool
 Eclipse ADT plugin is no longer supported, as per
 this announcement in June 2015

Zdroje a Android Studio

Android Studio eco-systém:

- Developer Android Forum (http://developer.android.com/)
- Stackoverflow (http://stackoverflow.com/)
- kotlin.org (https://kotlinlang.org/)
- iná literatúra (http://dai.fmph.uniba.sk/courses/VMA/android/pdfs/)
- (!) väčšinu odporúčaných kníh nájdete v našej knižnici, pav. I

Používame Android Studio 3.5 (Official IDE for Android)

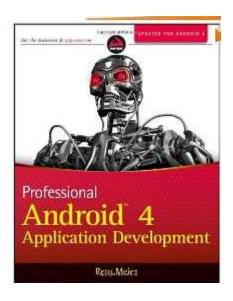

https://developer.android.com/studio/index.html

Už obsahuje aj Kotlin (1.3) support

2012, Reto Meier, Amazon: 4/5

CHAPTER 1	Hello, Android1
CHAPTER 2	Getting Started
CHAPTER 3	Creating Applications and Activities
CHAPTER 4	Building User Interfaces
CHAPTER 5	Intents and Broadcast Receivers
CHAPTER 6	Using Internet Resources
CHAPTER 7	Files, Saving State, and Preferences
CHAPTER 8	Databases and Content Providers
CHAPTER 9	Working in the Background
CHAPTER 10	Expanding the User Experience
CHAPTER 11	Advanced User Experience
CHAPTER 12	Hardware Sensors
CHAPTER 13	Maps, Geocoding, and Location-Based Services 513
CHAPTER 14	Invading the Home Screen
CHAPTER 15	Audio, Video, and Using the Camera
CHAPTER 16	Bluetooth, NFC, Networks, and Wi-Fi
CHAPTER 17	Telephony and SMS
CHAPTER 18	Advanced Android Development
CHAPTER 19	Monetizing, Promoting, and Distributing Applications

PART I LOCATION SERVICES

CHAPTER 1 Introducing the Android Location Service

CHAPTER 2 Determining a Device's Current Location

CHAPTER 3 Tracking Device Movement

CHAPTER 4 Proximity Alerts

PART II INFERRING INFORMATION FROM PHYSICAL SENSORS

CHAPTER 5 Overview of Physical Sensors

CHAPTER 6 Errors and Sensor Signal Processing

CHAPTER 7 Determining Device Orientation

CHAPTER 8 Detecting Movement

CHAPTER 9 Sensing the Environment

CHAPTER 10 Android Open Accessor

PART III SENSING THE AUGMENTED, PATTERN-RICH EXTERNAL WORLD

CHAPTER 11 Near Field Communication (NFC)

CHAPTER 12 Using the Camera

CHAPTER 13 Image-Processing Techniques

CHAPTER 14 Using the Microphone

PART IV SPEAKING TO ANDROID

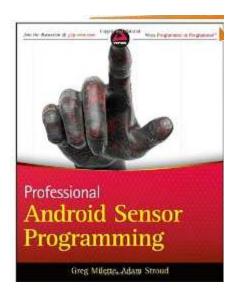

CHAPTER 15 Designing a Speech-Enabled App

CHAPTER 16 Using Speech Recognition and Text-To-Speech APIs

CHAPTER 17 Matching What Was Said

CHAPTER 18 Executing Voice Actions

CHAPTER 19 Implementing Speech Activation

- 2014, Reto Meier, Amazon: 4/5
- Hello, Android
- Getting Started
- Creating Applications and Activities
- 4. Creating User Interfaces
- 5. Intents, Broadcast Receivers, Adapters, and the Internet
- 6. Data Storage, Retrieval, and Sharing
- 7. Maps, Geocoding, and Location-Based Services
- 8. Working in the Background
- Peer-to-Peer Communication
- Accessing Android Hardware
- 11. Advanced Android Development

V knižnici FMFI

Bohužial len na prezenčnú výpožicku (t.j. len tam):

- Meier: Professional Android 4 Application
- •Milette: Professional Android Sensor Programming
- •Wii-Meng Lee: Beginning Android 4 Application Development

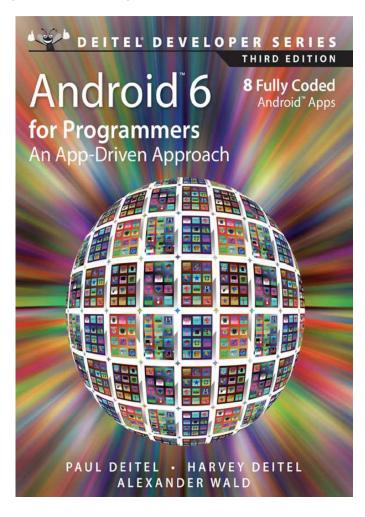

ANDROID™ 6 FOR PROGRAMMERS AN APP-DRIVEN APPROACH

Paul Deitel • Harvey Deitel • Alexander Wald, 2016, 3rd Edition, Amazon 4.4/5

8 konkrétnych appiek detailne vysvetlených

- Welcome App
- Cannon Game
- 3. Tip Calculator
- Weather Viewer
- 5. Flag Quiz
- 6. Twitter® Searches
- 7. Doodlz
- 8. Address Book

Java vs. Kotlin

tradičný kurz postavený na Java som zmenil na jazyk Kotlin Dôvody:

- ako iOS má svôj moderný jazyk Swift, aj Android má svoj Kotlin
- Java je trochu skamenelina medzi modernými jazykmi (Swift, Kotlin, Scala)
- Kotlin je Googlom oficiálne podporovaným vývojový nástroj pre Android
- projekt Kotlin má >5 rokov, kompiluje do JVM, funguje s Android Studio
- oboznámite sa s niektorými princípmi moderných jazykov challenge

Reference: https://kotlinlang.org/docs/reference/

```

</manifest>

Project: MyFirstApp2.zip

AndroidManifest.xml

(v AS ochudobnel, mnohé veci sa presunuli do build.gradle)

Najhlavnejšie tagy:

- **<uses-sdk** popisuje min./max. SDK a cieľovú verziu SDK Akú verziu SDK potrebujem pre moju verziu Androidu ? http://developer.android.com/quide/topics/manifest/uses-sdk-element.html#ApiLevels
- <uses-configuration a <uses-feature popisujú HW predpoklady na spustenie apky, display, klávesnicu, senzory
- <uses-supportScreens popisuje rozliško HVGA, QVGA, QVGA, WQVGA
- <uses-permissions popisuje práva, ktoré apka musí mať schválené
- <application je jediná a popisuje ikonu, logo, meno, ... aplikácie
- <activity popisujú package, intent, filtre pre aktivitu, može ich byť viac</p>
- <service popisujú aplikácie bežiace na pozadí, tzv. servisy
- - cprovider popisuje Content Provider, napr. lokálnu databázu LiteSQL
- <receiver popisuje Broadcast Receiver prijímajúci nejaké Intenty</p>
- <uses-library popisuje externé knižnice, napr. Google Maps, ...<

VMA2017

Hello World

Ako by to malo vyzerať

```
Score: Time:
```

```
<LinearLayout
    <TextView
         android:id="@+id/ScoreView"
        android:text="@string/score_str"/>
    <TextView
         android:id="@+id/timeView"
        android:text="@string/time_str" />
</LinearLayout>
<ImageView</pre>
    android:id="@+id/imageView1"
    android:contentDescription="@string/dronko"
    android:src="@drawable/ic_launcher" />
<LinearLayout</pre>
    <Button
        android:id="@+id/Startbtn"
       android:text="@string/start_str" />
    <Button
        android:id="@+id/Stopbtn"
```

android:text="@string/stop_str" />
